REASON TO BELIEVE

LOWER CARBON

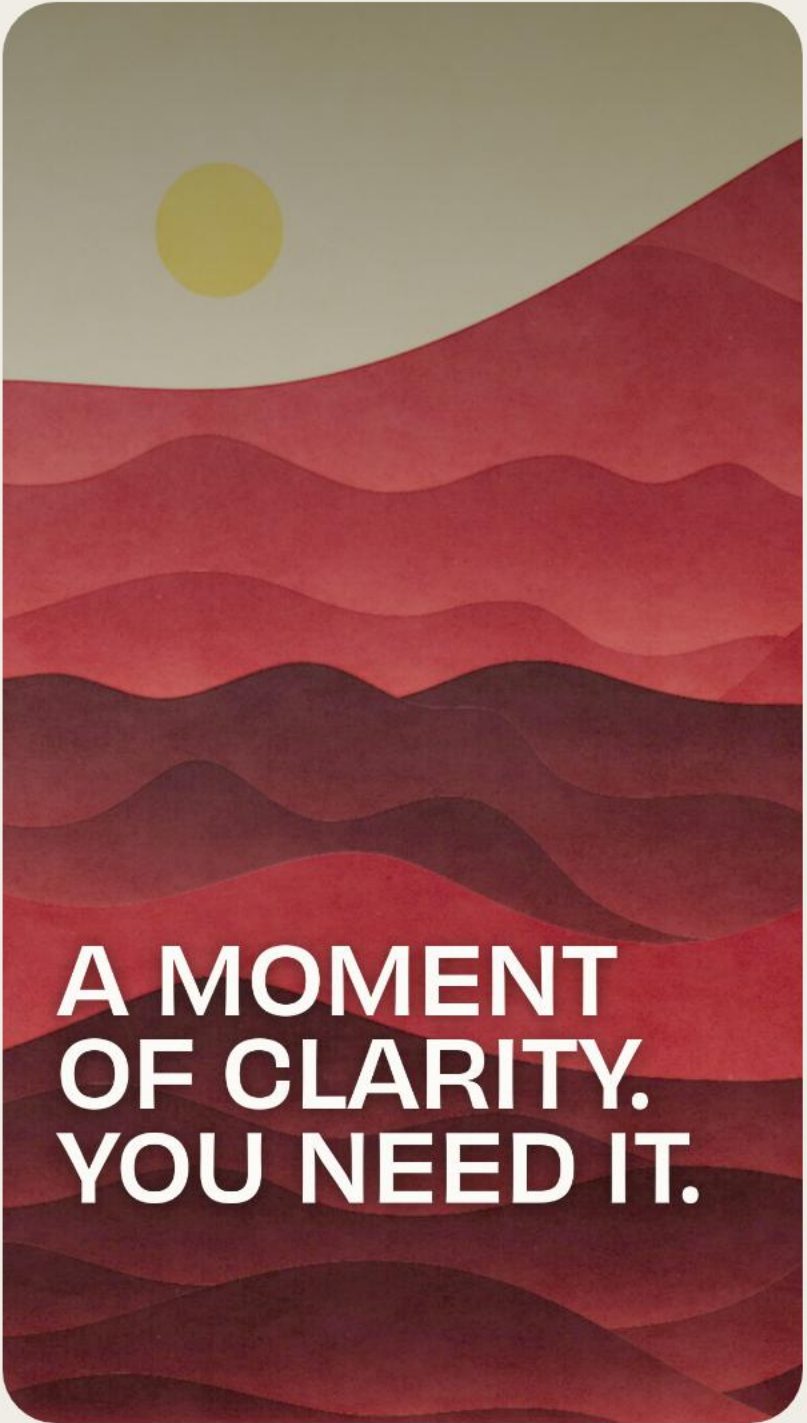

CAPTION

Our cans are environmentally certified, lower carbon, and made with pine oil. They also do a good job holding your pouches.

RANGE TRIPTYCH — ONE HORIZON

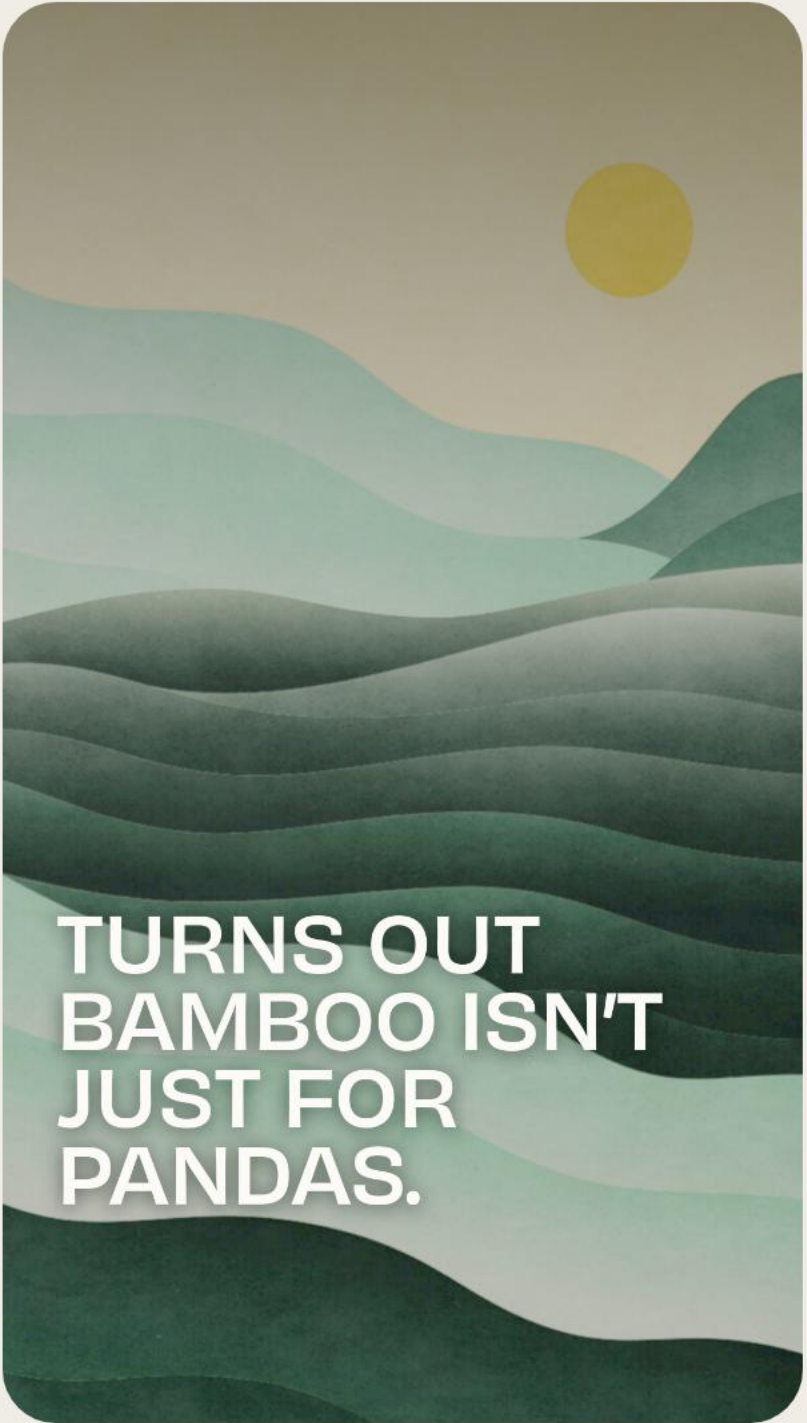

Three posts, in sequence, lock together across the feed grid into one panorama — also delivered as three 9:16 stories.

- I Some waits are worth their weight. Which in this case, if you're curious, is .5278 grams.
- II Like the sunrise, we didn't wait all night for it, dawn would be pretty meh.
- III If you think nicotine pouches should have taste and that taste should taste like what it is supposed to taste like — without the lab-made 'alternatives' when nature already does it pretty well — we were thinking the same thing.

Hi. Nice to meet you. We're Ki.
